

# US-13 AKU

## Product Introduction

This handheld dive light utilizes the USA CREE XML2 LED, max 800lumens output, Powered by 1\*18650 lithium rechargeable battery, 2 hours runtime in high output, twist on/off switch at head, very easy for you to operate, plus 8 degree beam angle, absolutely it is the first choice for the underwater adventure.

## Technical Parameters

ANSI	High	Medium	Low	Strobe	SOS
Output	800 Lumens	/	/	/	/
Runtime	2h	/	/	/	/
Intensity	18000cd				
Distance	270m				
Drop Resistant	1.5m				
Waterproof	IP68(under water 150m)				

The parameters above have been tested under laboratory conditions, so they may vary between different batteries and environments.

## Product Specification

- ✦ Utilize Cree XM-L2(U2) LED, lifespan is 50,000 hours;
- ✦ Powered by 1\* 18650 lithium rechargeable battery;
- ✦ Regulated power supply can maintain constant output;
- ✦ Over heat protection function;
- ✦ Reverse polarity protection to protect from wrong battery installation;
- ✦ Super big lanyard hole design for bolt snap mount;
- ✦ Twist on/off switch, very easy to operate;
- ✦ Three O rings design to makes it depth to underwater 150 meters;
- ✦ The crust is made of durable Aircraft-grade aluminum;
- ✦ Premium type III military hard-anodized finish for abrasion and corrosion resistance.
- ✦ 5mm Toughened glass can stand higher water pressure resistance
- ✦ Alloy aluminum reflector
- ✦ Dimensions : 40mm(head dia.)\*26mm(body dia.)\*32mm(tail dia.)\*142 mm(length)
- ✦ Standard accessories: 3 spare O-rings, Lubricant, lanyard, user manual and Neutral box ;
- ✦ Other accessories (optional): gift box, wrist strap, batteries and charger

## Luxuries Gold Plated Spring

Gold plated spring,

Better conductivity and longer life span.
